DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 fails to point out and distinctly claim Applicant's invention, as it is not clear how or why a "movable resonator" should be "immobilized," and the limitations recited in the "whereby ..." phrase are narrative and purely functional and do not positively recite any structure for performing the functions. Correction is required.

Claim 28 fails to point out and distinctly claim Applicant's invention, as the terms "appropriate," "musically relevant," "best tonal complexity and quality" are subjective and not clearly defined terms. Correction is required.

Claim 30 fails to point out and distinctly claim Applicant's invention, as it is narrative and does not clearly recite any method steps. Correction is required.

The examiner cannot determine the metes and bounds of the claims; therefore, no art can be applied at this time. Applicant should consider the cited art when amending the claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. VansEvers and Wendler are further cited to show related teachings in the art.
